

HOFiL-COP™ HFC50C

MONOBLOCK LIQUID FILLER & CAPPER for COSMETIC

PROCESS SAVING IS ONE THING, FLEXIBILITY IS EVERYTHING.

Would it be great if a filling and capping machine has the flexibility to handle multi types of bottles and caps? It is always a dream for cosmetic, perfume and toiletry manufacturer, the dream is now a reality.

COME, SEE and BELIEVE.

to breakthrough performance with passion

HFC50C is perfectly designed for Cosmetic, Toiletry and Perfumes packaging with breakthrough technology especially for high mix low volume production.

- Multi types of bottle and caps in a single machine
- Robustness by mechanical CAM driven
- Fast changeover
- Instant adaptability to new bottles with no change of parts or starwheel.
- Very minimum maintenance
- Small foot print
- Consistent filling and capping quality
- Operator friendly design with HMI
- Value for money

OPTIONAL ITEMS

- Inner plug or roll-on ball insertion module
- Bottle Cleaning module
- Auto bottle Depucker

TECHNICAL PERFORMANCE

- Mechanical speed : 50bpm
- Production Speed : up to 40bpm
- Filling volume : 10 - 250ml (upgradeable to 500ml)
- Liquid : Perfume, deodorant, toner, shampoo, conditioner, lotion, shower gel, etc.
- Bottle : almost any type of bottle included bottomless
- Caps : snap on, screw on, flip top, crimp caps, pumps caps
- Electricity : 10A @ 380-415 VAC three phase
- Air Supply : 50LPM @ 6 bar
- Machine weight : 900kg
- Noise Level : <75dB
- Machine dimension : 1.3m(W) x 1.7m(L) x 2m(H) (excluding conveyor)

Due to continues improvements policies, specifications are determined regionally and subject to upgrade without period notice.

Note : This machine contains several patents.
